

Space rentals in the Dialogue Centre

The Dialogue Centre is a new, dynamically developing cultural institution that organizes cultural and educational events, both to commemorate the past and address current, often controversial topics.

It is situated in the Survivors' Park in the Łódka River Valley, between Wojska Polskiego, Oblęgorska and Źródłowa Streets.

The building hosts primarily cultural and educational events such as lectures, international conferences and workshops, exhibitions, film screenings, as well as concerts and festivals.

Spaces available for rental:

- auditorium
- seminar rooms (2 small or 1 large)
- foyer
- dressing rooms
- cloak-room

Parking lot

Adjacent to the building, there is a parking lot for 50 cars (3 places for people with disabilities) and 2 coaches.

In addition, at the entrance to the Survivors Park (not far from the Dialogue Centre), there is a public parking lot for several dozen cars.

For people who come on bikes, we have bicycle racks available on the north and south sides of the building.

Auditorium

The auditorium was designed as a multi-purpose room, accommodating various types of events such as conferences, seminars, lectures, concerts and theatre performances. The room's infrastructure allows for a complete support of simultaneous translation. The room is adapted to the needs of people with physical disabilities. There are 196 seats, additional space for people in wheelchairs and a ramp.

Stage:

dimensions: 14.5 m x 6 m

Height: 6 m

A framework allowing for suspension of props is mounted above the stage.

Acoustics:

The auditorium is equipped with a system of acoustic wall and ceiling panels. The arrangement of perforated and smooth plates has been selected to meet the highest acoustic standards. The floor is covered with carpet with acoustic properties, while the wooden stage platform has an acoustic base.

Lighting:

Ceiling and side linear lighting serve as the main light source.

Additionally, above the stage there is a stage lighting system regulated with a EUROLITE DMX COMMANDER 24/48 control panel.

Audiovisual equipment

The audiovisual equipment in the auditorium allows for film screenings, multimedia shows, conferences and artistic performances.

Sound sources

- 3 wireless microphones (dynamic)
- 3 wired microphones (dynamic)
- Blu-ray player
- 2 onstage floor grids with HDMI and VGA + Audio outputs

The high standard of film screenings is ensured by a combination of a high brightness projector, an electrically operated screen and a stereo audio system.

Simultaneous Translation System

The simultaneous translation system consists of stationary transmitters installed in the interpreter's booths, handheld transmitters for presenters and speakers, a stationary receiver, and 200 receivers for guests.

It is possible to control the audiovisual equipment by the speaker via iPad

Seminar Room

There are two possible set-ups of the seminar (conference) room:

1. the room can be divided into two fully functional parts (room A and B).
2. one large room (requires folding the partition wall).

Small room A or B

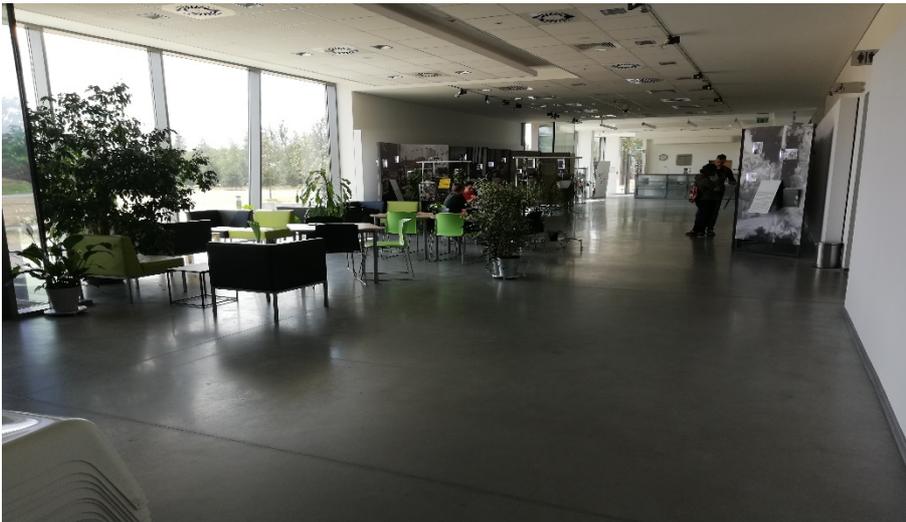

Each room uses systems based on projectors (one in each room) and sets of video inputs that allow for connecting most visual signals.
Wi-Fi available.

Large room

Ground Hall

In the hall, a modular system of seats and tables is used, allowing for rearranging the space easily and providing a place for catering.

The DALI lighting control system allows for various light intensity configurations.

Lighting

- exposition lighting fixtures, mounted on a track, with an adjustable angle of incidence of the light
- a system for building light lines, suspended from a suspended ceiling, lamella louvre
- general lighting, invisible LEDs, hidden under the lighting shades

There is also a cafe (currently available for rent).

Dressing rooms

There are two small dressing rooms combinable into one large room.
